
One Degree 2024/25 - Mulberry Academy Woodside

20 November 2024

Mulberry Academy Woodside worked closely with the One Degree programme during the following academic years:

- 2019/20: Delivered in-person sessions up until March 2020, followed by a fully online format due to the COVID-19 pandemic.
- 2020/21: A comprehensive online programme featuring on-demand resources, live streams, and scheduled online Saturday mentoring.
- 2021/22: A hybrid programme combining both in-person and online mentoring.
- 2022/23: A continued hybrid approach, offering the flexibility of in-person and online mentoring.

Our partnership with One Degree has been highly beneficial for our students. The tailored tutoring, mentoring and engaging resources provided by the programme have had a tangible, positive impact on our students' academic progress, confidence, and overall personal development.

The flexibility of the One Degree team, particularly during the challenges of the pandemic, were invaluable, and their approach has consistently aligned with our school's mission to provide exceptional education and experiences to every child, every day.

We would not hesitate to recommend the One Degree programme to other institutions seeking a meaningful and effective partnership to support student outcomes.

Mr P Bernard
Deputy Head Teacher
